

## Historical and Present Scottish Regattas

*I started to make out a list of places in Scotland that I had raced and places where I had heard that races were held. This list led on to a list of Clubs past and present, to another list of trophies many of which I had raced for. Another list of boat names past and present, nicknames of crews, of scullers. I wrote to Clubs, some replied, some did not. What amazed me was the number of Clubs who claimed to be the first club in Scotland, the first to have races, the first eights, the first quads, to have invented outriggers, sliding seats etc. Perhaps people will send me more info after they see this, and it can be added to?*
